1. WELCOME TO BIHUOFFICIAL

You are not simply entering another website, another social network or another commercial proposition.

You are entering an ecosystem built around a different idea: that business, technology, finance, media, art, communication and human relationships can be approached through compassion.

The public BIHUOFFICIAL gateway presents four principal dimensions: Compassion Language, EMILIE, TRUEHN and Compassion Art.

2. WHAT IS BIHUOFFICIAL?

BIHUOFFICIAL is the personal and cultural gateway into a much larger ecosystem. Public biographies describe H.E. Prof. Dr. Simon Rosenberg, also known as bihuofficial, as a physician, serial entrepreneur, author, actor and producer, and identify him with TRUEHN and Compassion Movies.

The resulting ecosystem crosses human development, communication, entertainment, publishing, art, technology, business, networking, finance, education, community and philanthropy.

3. THE FIRST GATEWAY: COMPASSION LANGUAGE

Compassion Language places love, empathy and compassion at the centre of communication. Within the wider ecosystem, it is presented as a cultural foundation through which the other parts of the universe can be understood.

Love. Empathy. Compassion.

4. THE EMILIE UNIVERSE

EMILIE is a central storytelling and cultural gateway. The published EMILIE series takes readers through international locations and missions, while the wider concept extends into books, digital projects, staking, treasury concepts, financial publications and media.

EMILIE is best understood as a universe rather than a single product: storytelling → film → art → community → digital economy → business → culture.

5. COMPASSION MOVIES & TRUEHNFLIX

Compassion Movies use filmmaking and storytelling as vehicles for love, empathy and compassionate giving. TRUEHNFLIX extends this into an entertainment ecosystem with film-festival and creator-oriented initiatives.

The wider ecosystem publicly includes TRUEHNFLIX VIP CLUB, TRUEHNFLIX AI MARKETING WEBINAR and media-related opportunities. Current prices and availability should always be verified before purchase.

6. COMPASSION ART

Compassion Art is the visual and artistic dimension of the ecosystem. Public materials describe it as an artistic expression rooted in Compassion Language and focused on visual narratives that speak from the heart.

The wider ecosystem includes Compassion Art, Digital Compassion Art, TRUEHN Art Exposition, TRUEHN Art Gallery and related publications and creators.

7. TRUEHN — THE BUSINESS ECOSYSTEM

TRUEHN is the business and economic gateway. Publicly described areas include TRUEHN NETWORK, TRUEHN MEDIA, TRUEHNFLIX, TRUEHN PAY, TRUEHN REAL ESTATE, TRUEHN ECONOMIES, financial markets, insurance, education, technology, recruiting, marketing, events and foundations.

8. NETWORKING & COMMUNITY

TRUEHN NETWORK provides a social and business networking environment with messaging, publishing and community features. HEART2HEART CHAT provides direct access to conversations with bihuofficial and the team, including live online chat with experts.

For clients, the core value is access: access to people, conversations, guidance, relationships and opportunities.

9. BUSINESS GROWTH OPPORTUNITIES

Publicly listed services include SEO WITH HEART, press-release campaigns, Tier1 Recruiting, mobile app development, video production and editing, UX/UI design and blockchain development.

These services create a practical pathway from participation in the ecosystem to building, marketing, recruiting and growing a business.

10. TRUEHN PAY & TRUEHN ECONOMIES

TRUEHN PAY is publicly presented as a payment solution for international trade and heartcurrency-related transactions. The wider TRUEHN ecosystem also includes blockchain-based economic environments, including a publicly documented TRUEHN SOLANA ECONOMY.

Financial, token and economic offerings can carry significant risk. Clients should review the applicable terms, fees, eligibility, legal status and risk disclosures before participating.

11. REAL ESTATE, EDUCATION & SOCIAL IMPACT

The wider ecosystem publicly includes TRUEHN REAL ESTATE and related publications and entities, as well as TRUEHN UNIVERSITY and educational initiatives.

TRUEHN YOUTH is publicly presented as a youth-focused foundation supporting youth initiatives and the expansion of Compassion Language. These projects connect community participation with social contribution.

12. TRUEHN WORLD
